OUR WASHINGTON LETTER. Our National Capital under water-A defnulter &c. &c.

From our Regular Correspondent

WASHINGTON, D. C., Ar 7, 18, 1879. reached a climax about 9 o'clock on Sat- ing inflammation there is probably noth. urday night, and took along with it a rage strength of the solution should be large quantity of the side excavation op- a small teaspoonful to a toilet glass of and everything else in the machinery line posite the Riggs House. Being on the water. side next the railroad, the cars were compelled to jump the track and propeed up R. W. E. PINKHAM,

the street on the concrete surface Secretary Thompson has just assued an important circular calling the attention of medical officers of the navy to the instructions already issued to then regarding reports of the sanitary condition of places visited by naval vessels. The ESTABLISHED ISH. secretary orders that during the continnance of yellow fever and other contagious diseases, returns from ports of the West Indies, Gulf of Mexico and South America, shall be forwarded with all possible promptitude. In all the last named ports the surgeons of flagts and of the several vessels are required t make a most thorough investigation of the causes of prevailing diseases, particularly yellow fever and cholers. The results of these observations will be forwarded without delay, and will be turned over to the National Board of Health, for ment of State has also issued a circular to United States consuls, directing them to co operate with the National Board of Health in every way possible, with a view to advising it of the ontbreak of any infectious disease. It is the desire of the general government to use every means at its command to prevent in the future the introduction into this country of yellow, fever cholera or n other infections diseases. A strict watch will hereafter be kept upon all; vessels leaving the West Indies, Mexican and Central and South American ports where épidemics exist. The names of all suspected vessels will be forwarded by telegraph to the State or Navy departments, and the Atlantic and Gulf ports notified It is believed that if a system of this character can be established and supported by Congress all infections di-

States can be effectually shut out The discovery of a heavy detalcation by W. N. Roach, cashier of the Citizens' National Bank, caused a great sensation last Friday. Roach was regarded as one of the most upright business men in the city. The latest account from the bank officials places the loss at \$57.200. The Tinware, Housekeeping Goods, Etc., Etc. peculations extend over a period of two years. Boach was interested in a lumber firm and attempted to make up losses through unfortunate speculations by appropriating the funds of the bank. He evidently hoped at some time to replace the money and in the menatime to smooth matters over by forcing halances. He only fell deeper into financial complications. There seems to be no disposition on the part of the bank officials to prosecute him. Col John G. Brownlow, who was re-

moved from the position of revenue agent in Tennessee to make room for for a men from Michigan, has been given a clerkship in the Treasury Dipartment by secretary Sherman. The colonel says that his removal from the position of revenue agent was not the act & S. cretery Sherman, but one of his bureau offiinternal revenue. He says further

that he has never been able to learn from Mr. Raum the reasons for bis removal. Those who assume to know the cause say that it was a mere matter of politics in Tennessee, in which the Treasury Department may some day be

AUGUM. BORAX.

It may be interesting to some to know that a weak solution of borax rater spuffed up the nostrils, causing it o pass through the nasal passage to the throat, then ejecting it from the mouth, will greatly relieve entarrh, and, in cases not too obstinate or long standing, will, if persevered in, effect a permanent oure. It is also of great value in cases of inflamed or weak eyes. Make a solutionnot too strong-and bathe it by opening and shutting it two or three times in the Pronounced by my customers "the best" water. This can be done by means of finest in flavor. best Java 33c. Fine an eye cup, or equally well by holding a handful of the water to the eye. | Another difficulty with which many persons are afflicted is an irritation or inflammation of the membrane lining the cavities of the nose, which become aggravated by the slightest cold, often causing much pain. This can be greatly relieved, if None faer in the market. Prices extremely low not entirely cared, by snaffing borax for each. water up the nostrils two or three times us a gargle. As a wash for the head it

VOL VII

Government and Finance. We make the following extent from intelligen the recent political speech made by profitably

Secretary Schurz at Cincianati y Prance, w My Democratic friends, I ask you in My Democratic friends, I ask you in all candon, have you considered what kind of a leader you have put at the bead of your party, and what kind of doctrine you are called upon to accept by voting for him? Stop and think for a moment what kind of a power that is:

To determine how much or how little money the pecple shall have, and by regulating the volume of carrency, to clienge its value; to determine arbitrarily what every dollar in the land shall be worth from week to week, and from through the day to day! The current value of every day to day ! The current value of every tion and us merchandise, of every private fortune, of enlation neman has in the avings bank, or the merchant has on deposit, will be at the
mercy of the Government. No man can
make an investment, the merchant can
sell or bay a lot of goods on time, no
manufacturer can accept an order, no
contractor can make a contract for a
public or private structure. No working contract, of every dollar the laboring bess, debt. public or private atructure, no working without oblicement can make a contract for wages, Dr. Wayland without the Government having it in its says: "Mer power to determine their profit or their facilitating of loss, their species or rule. That is the sidered as no power General Ewing wants the Government to exercise.

Without in the least defending or upbolding the candidacy of Gen. Ewing. let neexamine, in a plain, common-sense way, the argument of Secretary Schurz. as above set forth;

He holds that it is not sofe nor proper for the control of the finances to be to supply es vested in, and exercised by, the Govern balf the men ment—that is, the people. Who, then, bad work by power? If the Sepretary, in his use of that's just whe the word Government, means such a little money government as theone third imbeella and for many, half two-thirds knavish Republican Party of Il Government years administered, we heartily and heat the work wholly agree with him. But if he means the encroaches that in regard to the issuing of money, and the control of financial affairs, in this country, that if is butter for us to be at the mercy of a combination of Nation-
